

Announcing Our New Line Of Hassle-Free Innovative Pitot And Pitot Static Adapters

A solid connection between the Pitot probe and the Air Data Test Set is the essential foundation for accurate avionics evaluation. At AIRR Engineering we understand this necessity and design tools to effectively and efficiently meet the purpose. Starting with a clean sheet of paper and no restrictions, we have created Pitot and Pitot/Static adapters to reset the benchmark. *Patent Pending*

development on request

Pitot/Static/Static
Adapters

Features include:

- Leak-free simple connection
- One step cam operation
- Accurate, repeatable compression
- No lubrication required
- Leak-free O-ring boss ports and fittings
- Compact, lightweight form
- Locking mechanism prevents unintended release
- Attached dust caps and Remove Before Flight Safety Flag
- High visibility red anodized body
- User replaceable parts throughout
- Easy-to-remove retaining ring for simple maintenance
- Free leak test plug
- Free replacement seal kit
- Free molded storage case with double adapter sets
- Choice of AN3, AN4 or AN6 fittings
- Two Year material and workmanship warranty.

Pitot Adapters

* Superscript denotes interchangeability
